ABSTRACTS
Abstracts of Papers Presented at the Annual Meeting of the American Association for the Study of Liver Diseases, 1013
Abstracts of Papers Presented at the Annual Meeting of the American Gastroenterological Association, 923
Abstracts of Papers Presented at the Annual Meeting of the American Society for Gastroenterological Endoscopy, 1061
Abstracts of Papers Presented at the Annual Meeting of the Gastroenterological Research Forum, 1033
American Association for the Study of Liver Diseases Twentieth Annual Meeting. Abstracts of Papers Presented and Read by Title, 277
Acetic acid, and to gastric mucosa, blood flow, 311
Achalasia, and esophago-esophageal fistula (Case Report), 223
Acid hypersecretion
and protein-losing gastropathy
in giant thickening of gastric mucosa (Case Report), 73
with hypertrophy (Case Report), 80
Acidity, undissociated in gastric juice, measurement and relationship to protein buffers, 345
Acid output, potentiation, by a distention stimulus, 633
Adrenocorticotropin, influence on rate of exfoliation and renewal of gastric mucosal cells, 329
AGA Audiotapes (Notice), 607
AGA Slide-Audiotapes on Absorption and Malabsorption of Fat Now Available (Notice), 136
Albumin, metabolism, review of current concepts (Progress in Gastroenterology), 402
Alcohol
effects on gastric potential difference, 437
liver disease, cardiac abnormalities in, 115*
Alimentary bleeding
and aspirin, 262*
Almy, T. P.
Integration of gastric functions: a conference (Comment), 270
See Fordtran (Editorial), 898
Alpers, D. H., and M. Solin. The characterization of rat intestinal amylase, 833
Alvarez, W. C. Dr. Bobbs' first operation for drainage of a diseased gallbladder (Comment), 128
Amylase, intestinal (rat), characterization of, 833
Amylopectin sulfate
and recurrent duodenal ulcer (Comment), 913
a controlled study, 756
Anemia, pernicious, effect of parietal cell antibodies from on parietal cell mass and hydrochloric acid output in rats, 482
Anesthetics, halothane, recurrent hepatitis when used for radium treatment of carcinoma of cervix uteri, 790
1970 Annual Meeting of the American Gastroenterological Association (Notice), 137, 275, 436, 606, 745
Antacids, in healing of gastric ulcers, 112*
Antibodies
anticolon, in normal animals, 119*
to gastrin
inhibiting, 151
radioimmunoassay and physiological studies, 139
synthesis, gut-associated, 727*
Anticholinergic therapy
long term
effect on gastric acid secretion, 750
measurement of peak histalog response, 750
Antithymocyte, globulin, effect on experimental acute and chronic viral hepatitis, 516
Ascites, clinical course related to management (Current Clinical Concepts), 546
Asp, N.-G., A. Dahlqvist, and O. Koldovský. Small intestinal β-galactosidase activity (Comment), 590
Aspirin
and alimentary bleeding, 262*
and alteration of gastric mucosa, 723*
and gastric ulcer, 263*
and profile of gastric potential difference, 437
damage to gastric mucosa, blood flow, 311
influence on rate of exfoliation and renewal of gastric mucosal cells, 329
Augur, N. A., Jr. Gastric mucosal blood flow following damage by ethanol, acetic acid, or aspirin, 311
Autoradiography, study on active ulcerative colitis, cell renewal in human rectum, 000

Bacterial flora, associated with human gastointestinal mucosa, 56
Badley, B. W. D., G. M. Murphy, I. A. D. Bouchier, and S. Sherlock. Diminished micellar phase lipid in patients with chronic nonalcoholic liver disease and steatorrhea, 781
Bailey, J. J. See Gruhl (Case Report), 217
Baker, S. J. See Klipstein (Editorial), 717
Balcerzak, S. P., W. C. Lane, and J. W. Bullard. Surface structure of intestinal epithelium, 49

* The superior symbol (*) indicates that the entry is found in the "Selected Summaries" section.

CONTENTS OF VOLUME 58

No. 1, JANUARY 1970

Radioimmunoassay of Gastrin. R. S. Yalow and S. A. Berson 1
Photodecomposition of Bilirubin and Biliverdin in Vitro. J. D. Ostrow and R. V. Branham 15
Effect of Phospholipase A on Cholesterol Solubilization by Lecithin in a Bile Salt Solution. D. H. Neiderhiser and H. P. Roth 26
Cineradiographic Evaluation of the Esophagus in Normal Adults: A Study of 146 Subjects Ranging in Age from 21 to 90 Years. P. Mandelstam and A. Lieber 32
Total Recovery Studies of Nonabsorbable Indicators in the Rat Small Intestine. D. L. Miller and H. P Schedl 40
A New Method for Measuring Intestinal Cell Transit Time. C. P. Sigdestad, R. F. Hagemann, and S. Lesher 47
Surface Structure of Intestinal Epithelium. S. P. Balcerzak, W. C. Lane, and J. W. Bullard 49
Bacterial Flora Associated with the Human Gastrointestinal Mucosa. D. P. Nelson and L. J. Mata 56
Ultrastructure of the Rat Exocrine Pancreas after Long Term Intake of Ethanol. N. Darle, R. Ekholm, and Y. Edlund 62
Giant Thickening of the Gastric Mucosa with Acid Hypersecretion and Protein-losing Gastropathy. A. M. Brooks, J. I. Isenberg, and H. Goldstein 73
Hypertrophic, Hypersecretory Protein-losing Gastropathy. B. F. Overholt and G. H. Jeffries 80
Fulminating Noninfective Pseudomembranous Colitis. A. Groll, M. J. Vlassembrouck, S. Ramchand, and L. S. Valberg 88
Progress in Gastroenterology 96
Editorials 108
Selected Summaries 111
Comments 123
Book Reviews 131
Notices 134

No. 2, FEBRUARY 1970

Studies with Antibodies to Gastrin. Radioimmunoassay in Human Serum and Physiological Studies. J. E. McGuigan and W. L. Trudeau 139
Inhibition of Endogenous Gastrin Activity by Antibodies to the Carboxyl-terminal Tetrapeptide Amide of Gastrin. B. M. Jaffe, W. T. Newton, and J. E. McGuigan 151
Lower Esophageal Sphincter Pressure as an Index of Lower Esophageal Sphincter Strength. S. Cohen and L. D. Harris 157
Histological Consequences of Gastroesophageal Reflux in Man. F. Ismail-Beigi, P. F. Horton, and C. E. Pope, II 163
Relation of Gastroesophageal Reflux to Yield Sphincter Pressures. J. K. Haddad 175
Evaluation of a String Test in Nonbleeding Individuals. D. M. Switz and H. P. Roth 185
Focal Granulomatous Colitis. Observation of Its Course. A. Ettinger 189
Neomycin-induced Malabsorption in a Tropical Population. G. T. Keusch, F. J. Troncale, and A. G. Plaut 197
Anicteric and Icteric Hepatitis after Open-Heart Surgery. V. J. Proskey, G. R. Morrison, B. P. McQuillan, and B. M. Parker 203
Effect of Sulfation on the Gastrointestinal Actions of Caerulein. L. R. Johnson, G. F. Stening, and M. I. Grossman 208
Protein-losing Enteropathy Caused by a Retained Intestinal Tube. V. R. Gruhl, H. J. Weis, J. J. Bailey, and N. N. Hanks 217
Esophago-Esophageal Fistula in a Patient with Achalasia. C. M. Knauer, W. T. McLaughlin, and J. B. D. Mark 223
Progress in Gastroenterology 229
Editorial 253

INDEX TO VOLUME 59*

Aagaard, P., and J. Christiansen. Gastric secretion of magnesium following stimulation with peptavlon and histamine, 46
Absorption
  bile acid, effect of colonic perfusion (dog), 120
  bilirubin, peritoneal and associated jaundice (Case Report), 769
  essential amino acids, impaired jejunal rates induced by dietary caloric or protein deprivation in man, 404
  fat, effect of reduced luminal *p*H in proximal small intestine (hamster), 222
  intestinal, in chronic alcoholism, 657
  iron, significance of alterations in portal cirrhosis, 188
  lipid, and lipolysis in stomach (rat), 22
  magnesium, by everted sacs of intestine and colon (rat), 745
  peritoneal, of bilirubin and associated jaundice (Case Report), 769
  sugar, in small intestine after feeding in infant diarrhea, 396
  d-xylose, limitation of test, 380
Abstracts to be published in Gastroenterology, form (Notices), 496
Acid reduction, by antrectomy, 484*
Acid secretion
  inhibition, 807*
  insulin-stimulated, effect of partial vagotomy in neck or lower thorax (dog), 376
Activity
  enzymatic, demonstration against a medium chain triglyceride (rat), 13
  gut enzyme, effect of cholchicine, 644*
  intestinal dipeptidase, changes during fetal and neonatal development as related to ultrastructure of mucosal cells (pig), 247
Adenosine 3′,5′-monophosphate, cyclic, role in hepatic and gastrointestinal function (Progress in Gastroenterology), 280
Adibi, S. A., and E. R. Allen. Impaired jejunal absorption rates of essential amino acids induced by either dietary caloric or protein deprivation in man, 404
Agosti, A., S. Biasioli, and G. Bertaccini. Action of caerulein on gastric secretion in man, 727
Alcian blue, binding properties of gastric juice, 534
Alcoholism, chronic, pancreatic function and intestinal absorption, 657
Aldor, T. A. M., and E. W. Moore. Magnesium absorption by everted sacs of rat intestine and colon, 745
Allen, E. R. See Adibi, 404
Allergin, food, eosinophilic gastroenteritis reaction, 874
Allopurinol, effect on iron mobilization (rat), 103
Almy, T. P. Homage to editors, old and new (Editorial), 144
Amdrup, E., and H.-E. Jensen. Selective vagotomy of the parietal cell mass preserving innervation of the undrained antrum. A preliminary report of the results in patients with duodenal ulcer, 522
American Gastroenterological Association annual meeting, highlights (Comments), 492
Amiloride, new antikaluretic diuretic, comparison to other antikaluretic diuretics in liver disease and ascites, 833
Amino acids, essential, impaired jejunal absorption rates induced by dietary caloric or protein deprivation in man, 404
Anastomosis
  ileorectal, 638*
  portacaval
    and portal systemic encephalopathy, qualitative and quantitative relationships of fecal flora in cirrhosis, 70
    and splenic blood flow and resistance in cirrhosis before and after, 208
Anemia, pernicious, ultrastructure of gastric mucosa, 36
Anions, of fecal fluid, 308*
Antia, F. P. See Desai, 701
Antibody, Australia, in blood donors and recipients, 810*
Antigen, Australia, in blood donors and recipients, 810*
Antikaluresis, amiloride, comparison to other antikaluretic diuretics in liver disease and ascites, 833
Antrectomy
  acid reduction, 484*
  effects on fundic mucosa (rat), 437
Antrum, undrained, selective vagotomy of parietal cell mass preserving innervation, 522
Aperistalsis, an answer, 483*
Apparatus, compressed air, for exfoliative cytology of stomach, 358
April, E. See Fagin (Case Report), 917
Archer, R. See Wood (Case Report), 265
Armstrong, C. D. See Ignatius (Case Report), 610
Ascites
  and liver disease, comparison of amiloride, new

* The superior symbol (*) indicates that the entry is found in the "Selected Summaries" section.

XUM

antikaluretic diuretic, to other antikaluretic diuretics, 833
chronic pancreatic (Case Report), 453
Assay, two pepsin fractions in gastric juice by alkali inactivation, 528
Autoimmunity, in familial cirrhosis, 546

Bacteremia, following peroral biopsy of small intestine (Case Report), 140
Bacteria
modification, of taurocholate during enterohepatic recirculation in normal man and small intestinal disease, 553
utilization of *d*-xylose in intraluminal small intestine, 380
Barrier disruption, acute gastroduodenal stress ulceration of varied pathogenesis (Editorial), 478
Barrowman, J. A., and S. J. Darnton. The lipase of rat gastric mucosa. A histochemical demonstration of the enzymatic activity against a medium chain triglyceride, 13
Bassily, S. See Lehman, 433
Bell, C. C., Jr. See Vlahcevic, 62, 165
Beneventano, T. C., and C. J. Schein. Pyloric sphincter incompetence in man. A physiological variant, 518
Ben-Ezzer, J. See Shani, 842
Bennett, A., and B. Fleshler. Prostaglandins and the gastrointestinal tract (Progress in Gastroenterology), 790
Bennett, J. R., and T. R. Hendrix. Diffuse esophageal spasm: a disorder with more than one cause (Current Clinical Concepts), 273
Berg, N. O., A. Dahlqvist, T. Lindberg, and Å. Norden. Intestinal dipeptidases and disaccharidases in celiac disease in adults, 575
Bertaccini, G. See Agosti, 727
Biasioli, S. See Agosti, 727
Bickel, J. G. See Witten (Comments), 330
Bile
effect on electrolyte movement across gastric antral and fundic mucosa (dog), 691
lithogenic, significance of liver in production, 62
Bile acid
absorption, effect of colonic perfusion with unconjugated bile acids (dog), 120
diminished pool size in patients with gallstones, 165
unconjugated, effect of colonic perfusion on water and electrolyte transport, morphology, and bile acid absorption (dog), 120
Bile flow, canalicular, and bile secretory pressure, evidence for non-bile salt dependent fraction in isolated perfused liver (rat), 853
Bile pressure, secretory and canalicular bile flow, evidence for non-bile salt dependent fraction in isolated perfused liver (rat), 853
Bile salt
effect on hepatic metabolism of sulfobromophthalein, 313*
effect on ionic movement across gastric mucosa, 683
Biliary secretion, dose-response relation of insulin and 2-deoxy-D-glucose (dog), 665
Bilirubin, peritoneal absorption, and associated jaundice (Case Report), 769
Binding property, Alcian blue to gastric juice, 534
Biochemistry, effect of fasting versus feeding on small intestine (rat), 214
Biopsy
peroral
bacteremia of small intestine (Case Report), 140
histological diagnosis of Crohn's disease of proximal intestine, 868
rectal, diagnostic value of mucosubstances, 804*
suction, aid in diagnosis of granuloma of distal duodenum (granulomatous enteritis), 862
Bleeders, turned off (Editorial), 477
Bleeding
acute gastrointestinal, selective arterial drug infusions in treatment of, 341
gastrointestinal
and mesenteric ischemia, 943*
outcome, 635*
Blood, Australia antigen and antibodies in donors and recipients, 810*
Blood flow, splenic, and resistance in cirrhosis before and after portacaval anastomosis, 208
Blood glucose
and glucagon and pancreatic exocrine secretion (Comments), 157
relationship to exocrine pancreatic secretion (Comments), 156
Blum, A. L. See Makhlouf, 896
Bolin, T. D., A. E. Davis, C. S. Seah, K. L. Chua, V. Yong, K. M. Kho, C. L. Siak, and E. Jacob. Lactose intolerance in Singapore, 76
Bond, J. H., Jr. See Levitt (Progress in Gastroenterology), 921

CONTENTS OF VOLUME 59

No. 1, JULY 1970

Our New President: James A. Clifton, M.D. H. P. Schedl 1
Serum Gastrin Levels in Patients with Peptic Ulcer Disease. W. T. Trudeau and J. E. McGuigan 6
The Lipase of Rat Gastric Mucosa. A Histochemical Demonstration of the Enzymatic Activity against a Medium Chain Triglyceride. J. A. Barrowman and S. J. Darnton 13
Lipolysis and Lipid Absorption in the Stomach of the Suckling Rat. H. F. Helander and T. Olivecrona 22
Ultrastructure of the Gastric Mucosa in Patients with Atrophic Gastritis and Pernicious Anemia. S.-F. Chiao and H. Weisberg 36
Gastric Secretion of Magnesium following Stimulation with Peptavlon and Histamine. P. Aagaard and J. Christiansen 46
Prevention of the Ethanol-induced Fatty Liver in the Rat by Phenobarbital. R. S. Koff, E. A. Carter, S. Lui, and K. J. Isselbacher 50
Significance of the Liver in the Production of Lithogenic Bile in Man. Z. R. Vlahcevic, C. C. Bell, Jr., and L. Swell 62
Qualitative and Quantitative Relationships of the Fecal Flora in Cirrhotic Patients with Portal Systemic Encephalopathy and following Portacaval Anastomosis. M. H. Floch, J. Katz, and H. O. Conn 70
Lactose Intolerance in Singapore. T. D. Bolin, A. E. Davis, C. S. Seah, K. L. Chua, V. Yong, K. M. Kho, C. L. Siak, and E. Jacob 76
Postprandial *p*H and Neutralizing Capacity of the Proximal Duodenum in Dogs. A. M. Brooks and M. I. Grossman 85
Effect of Secretin on Fasting and Postprandial *p*H of the Duodenal Bulb in Dogs. A. M. Brooks and M. I. Grossman 90
Production by Secretagogues of Duodenal Ulcers in the Rat. A. Robert, T. J. Stout, and J. E. Dale 95
Effect of Allopurinol on Iron Mobilization. N. D. Grace, M. A. Greenwald, and M. S. Greenberg 103
The Insulin Secretory Effect of the Human Duodenal Mucosa. J. Fasel, H. Hadjikhani, and J.-P. Felber 109
Effect of Secretin and Cholecystokinin on Pentagastrin-stimulated Gastric Secretion in Man. A. M. Brooks and M. I. Grossman 114
Perfusion of the Canine Colon with Unconjugated Bile Acids. Effect on Water and Electrolyte Transport, Morphology, and Bile Acid Absorption. H. S. Mekhjian and S. F. Phillips 120
Malignant Celiac Syndrome. Report of Two Cases with Malabsorption and Microscopic Foci of Intestinal Lymphoma. D. O'B. Hourihane and D. G. Weir 130
Bacteremia following Peroral Biopsy of the Small Intestine. A. M. Petty and J. Wenger 140
Editorials 144
Selected Summaries 149
Comments 156
Book Reviews 159
Notices 163

No. 2, AUGUST 1970

Diminished Bile Acid Pool Size in Patients with Gallstones. Z. R. Vlahcevic, C. C. Bell, Jr., I. Buhac, J. T. Farrar, and L. Swell 165
Sustained Gastric Secretion in Response to 2-Deoxy-D-Glucose. Indefatigability of the Vagal Mechanism. M. M. Eisenberg, R. C. Chawla, and K. Sugawara 174
The Short Term Reproducibility of the Insulin Test in Peptic Ulcer Patients. G. Gillespie, J. B. Elder, I. E. Gillespie, A. W. Kay, and G. P. Crean 180
Significance of Alterations in Iron Absorption in Patients with Portal Cirrhosis. D. Olatunbosun, J. Ludwig, W. E. Corbett, J. B. Simon, and L. S. Valberg 188
Effects of Chelation of Calcium on the Gastric Mucosal Barrier. R. S. K. Chung, P. T. Sum, H. Goldman, M. Field, and W. Silen 200
Splenic Blood Flow and Resistance in Patients with Cirrhosis before and after Portacaval Anastomoses. N. Gitlin, G. R. Grahame, L. Kreel, H. S. Williams, and S. Sherlock 208
Effect of Fasting versus Feeding on the Rat Small Intestine. Morphological, Biochemical, and Functional Differences. J. P. A. McManus and K. J. Isselbacher 214

XUM

Effect of a Reduced Luminal *p*H in the Proximal Small Intestine on Fat Absorption in the Hamster. C. M. Mansbach II and M. P. Tyor ... 222
Gastric Nonabsorbable Indicators for Studies in Man. K. J. Ivey and H. P. Schedl ... 234
Relationship of Pyrimidine Biosynthetic Enzymes to Cellular Proliferation in Rat Intestine during Development. J. J. Herbst, R. Fortin-Magana, and P. Sunshine ... 240
Changes in Intestinal Dipeptidase Activities during Fetal and Neonatal Development of the Pig as Related to the Ultrastructure of Mucosal Cells. T. Lindberg and B. W. Karlsson ... 247
Salivary Mucins of Patients with Cystic Fibrosis. Composition and Susceptibility to Degradation by Salivary Glycosidases. R. Menguy, Y. F. Masters, and L. Desbaillets ... 257
Coexistence of Regional Enteritis and Carcinoid Tumor. W. J. Wood, R. Archer, J. W. Schaefer, C. Stephens, and W. O. Griffen, Jr. ... 265
Peritoneal Encapsulation of the Small Intestine. K. Lewin and L. J. McCarthy ... 270
Current Clinical Concepts ... 273
Progress in Gastroenterology ... 280
Editorials ... 301
Selected Summaries ... 308
Training and Education in Gastroenterology ... 316
Comments ... 327
Book Reviews ... 337
Notices ... 340

No. 3, SEPTEMBER 1970

Selective Arterial Drug Infusions in the Treatment of Acute Gastrointestinal Bleeding. A Preliminary Report. J. Rösch, R. K. Gray, J. H. Grollman, Jr., G. Ross, R. J. Steckel, and M. Weiner ... 341
Hydrogen and Sodium Permeation of Canine Gastric Mucosa during Histamine and Sodium Thiocyanate Administration. F. G. Moody and W. L. Davis ... 350
An Improved Compressed Air Apparatus for Exfoliative Cytology of the Stomach. J. Wenger and E. Penfold ... 358
Gastric Acid Response to Pentagastrin and Histamine after Extragastric Vagotomy in Dogs. G. F. Stening and M. I. Grossman ... 364
Comparison of Free Portal Venous Pressure and Wedged Hepatic Venous Pressure in Patients with Cirrhosis of the Liver. A. Viallet, J.-G. Joly, D. Marleau, and P. Lavoie ... 372
Effect of Partial Vagotomy in the Neck or Lower Thorax on Insulin-stimulated Acid Secretion in Dogs. G. F. Stening and M. I. Grossman ... 376
Intraluminal Small-Intestinal Utilization of *d*-Xylose by Bacteria. A Limitation of the *d*-Xylose Absorption Test. F. Goldstein, S. Karacadag, C. W. Wirts, and O. D. Kowlessar ... 380
Gastric and Pancreatic Responses to Jejunal Distention. Effects of Extracorporeal Mesenteric Vascular Perfusion. R. S. K. Chung, D. Fromm, L. Trencis, and W. Silen ... 387
Studies on Infant Diarrhea. IV. Sugar Transit and Absorption in Small Intestine after a Feeding. H. Rodriguez-de-Curet, C. Lugo-de-Rivera, and R. Torres-Pinedo ... 396
Impaired Jejunal Absorption Rates of Essential Amino Acids Induced by either Dietary Caloric or Protein Deprivation in Man. S. A. Adibi and E. R. Allen ... 404
Immunochemical Studies of the Serum, Intestinal Secretions and Intestinal Mucosa in Patients with Adult Celiac Disease and Other Forms of the Celiac Syndrome. A. P. Douglas, P. A. Crabbé, and J. R. Hobbs ... 414
Scanning Electron Microscopy. A New Method in the Study of Rectal Mucosa. H. Kavin, D. G. Hamilton, R. E. Greasley, J. D. Eckert, and G. Zuidema ... 426
Intestinal Protein Loss in Schistosomal Polyposis of the Colon. J. S. Lehman, Jr., Z. Farid, S. Bassily, J. Haxton, M. F. A. Wahab, and D. C. Kent ... 433
Effects of Antrectomy on the Fundic Mucosa of the Rat. F. Martin, I. B. Macleod, and W. Sircus ... 437
Retrograde Pancreatography and Cholangiography by Fiber Duodenoscope. K. Takagi, S. Ikeda, Y. Nakagawa, N. Sakaguchi, T. Takahashi, K. Kumakura, M. Maruyama, N. Someya, H. Nakano, T. Takada, T. Takekoshi, and T. Kin ... 445
Chronic Pancreatic Ascites. S. C. Schindler, J. W. Schaefer, D. Hull, and W. O. Griffen, Jr. ... 453
Progress in Gastroenterology ... 460
Editorials ... 477
Selected Summaries ... 483
Comments ... 492

Book Reviews 493
Notices 496

No. 4, October 1970

Immunochemical Measurements of Endogenous Gastrin Release. J. E. McGuigan, B. M. Jaffe, and W. T. Newton 499
Effect of Lysolecithin, Digitonin, and Phospholipase A upon the Dog's Gastric Mucosal Barrier. H. W. Davenport 505
Effect of Secretin on Gastric Acid Secretion in Response to Cholinergic Stimuli. L. W. Way 510
Pyloric Sphincter Incompetence in Man. A Physiological Variant. T. C. Beneventano and C. J. Schein. 518
Selective Vagotomy of the Parietal Cell Mass Preserving Innervation of the Undrained Antrum. A Preliminary Report of Results in Patients with Duodenal Ulcer. E. Amdrup and H.-E. Jensen 522
Assay of Two Pepsin Fractions in Human Gastric Juice by Alkali Inactivation. M. J. Seijffers and R. Tkatch 528
Alcian Blue Binding Properties of Gastric Juice. D. W. Piper, D. Whitecross, P. Leonard, and A. Clarke 534
Comparison of Effects of Gastrin, Cholecystokinin-Pancreozymin, Secretin, and Glucagon on Human Stomach Muscle in Vitro. A. J. Cameron, S. F. Phillips, and W. H. J. Summerskill 539
Familial Cirrhosis with Autoimmune Features and Raised Immunoglobulin Levels. R. A. Joske and B. H. Laurence 546
Bacterial Modification of Taurocholate during Enterohepatic Recirculation in Normal Man and Patients with Small Intestinal Disease. J. T. Garbutt, R. M. Wilkins, L. Lack, and M. P. Tyor 553
Symptomatic Hypomagnesemia Complicating Regional Enteritis. K. Gerlach, D. A. Morowitz, and J. B. Kirsner 567
Intestinal Dipeptidases and Disaccharidases in Celiac Disease in Adults. N. O. Berg, A. Dahlqvist, T. Lindberg, and Å. Nordén 575
Active Transport of Sodium by Human Colon in Vitro. G. F. Grady, R. C. Duhamel, and E. W. Moore .. 583
An Experience of Ulcerative Colitis. II. Short Term Outcome. K. N. Jalan, R. J. Prescott, W. Sircus, W. I. Card, J. P. A. McManus, C. W. A. Falconer, W. P. Small, A. N. Smith, and J. Bruce 589
An Experience of Ulcerative Colitis. III. Long Term Outcome. K. N. Jalan, R. J. Prescott, W. Sircus, W. I. Card, J. P. A. McManus, C. W. A. Falconer, W. P. Small, A. N. Smith, and J. Bruce 598
Multiple Diffuse Cystic Disease of the Stomach in Association with Carcinoma. J. A. Ignatius, C. D. Armstrong, and S. L. Eversole 610
Progress in Gastroenterology 615
Editorials 630
Selected Summaries 635
Comments 645
Book Reviews 648
Notices 654

No. 5, November 1970

Pancreatic Function and Intestinal Absorption in Chronic Alcoholism. E. Mezey, E. Jow, R. E. Slavin, and F. Tobon 657
Comparison of Dose-Response Relations of Insulin and 2-Deoxy-D-glucose for Biliary and Gastric Acid Secretion in Dogs. R. S. Jones, R. E. Geist, and A. D. Hall 665
Studies on Human Gastric Gel Mucin. Isolation and Characterization of a Major Glycoprotein Component. D. Waldron-Edward and S. C. Skoryna 671
Effect of Bile Salts on Ionic Movement across the Human Gastric Mucosa. K. J. Ivey, L. DenBesten, and J. A. Clifton 683
The Effect of Bile on Electrolyte Movement across Canine Gastric Antral and Fundic Mucosa. J. L. Werther, H. D. Janowitz, W. P. Dyck, M. L. Chapman, and J. Rudick 691
The Effect of Graded Insulin Doses on Incompletely Vagotomized Subjects. J. I. Isenberg, G. F. Stening, J. L. Pitcher, and A. M. Brooks 698
Comparison of Dose-Response Curves with Subcutaneous and Intravenous Histamine. H. G. Desai, M. P. Zaveri, and F. P. Antia 701
Inhibitory Effects of a Purified Enterogastrone, Secretin, and Cholecystokinin on Histamine-stimulated Gastric Acid Secretion. H. W. Lucien, Z. Itoh, and A. V. Schally 707
Duodenal Ulcer as a Second Disease. R. R. Monson 712

XUM

Pacemaker Localization and Electrical Conduction Patterns in the Canine Stomach. J. Weber, Jr., and S. Kohatsu ... 717
Action of Caerulein on Gastric Secretion in Man. A. Agosti, S. Biasioli, and G. Bertaccini ... 727
Effects of Drugs, Ileal Obstruction, and Irradiation on Rat Gastrointestinal Propulsion. R. W. Summers, T. H. Kent, and J. W. Osborne ... 731
Effects of Altered Propulsion on Rat Small Intestinal Flora. R. W. Summers and T. H. Kent ... 740
Magnesium Absorption by Everted Sacs of Rat Small Intestine and Colon. T. A. M. Aldor and E. W. Moore ... 745
Pressure Inversion Point at the Upper High Pressure Zone and Its Genesis. R. K. Goyal, M. H. Sangree, T. Hersch, and H. M. Spiro ... 754
Hyperplastic Mucosal Changes in the Rabbit Colon Produced by Degraded Carrageenin. J. Watt and R. Marcus ... 760
Jaundice Associated with Peritoneal Absorption of Bilirubin. P. Stathakos, R. Fanska, J. V. Carbone, and G. M. Grodsky ... 769
Cutaneous Porphyria due to a Malignant Primary Hepatoma. R. P. H. Thompson, D. C. Nicholson, T. Farnan, D. N. Whitmore, and R. Williams ... 779
Current Clinical Concepts ... 784
